In the coming days, your account will be invoiced for the following services. If you no longer wish to use any of the listed services, please ensure they are removed entirely from the platform today. Otherwise, this report provides you with an overview of the amount you will be invoiced this month if no more changes are made to your account. Between the 26th and 28th of this month, we will raise an invoice for the services that have been used for this period. If you have purchased any pre-paid credits, these will be allocated first, then any remaining amount will appear on your invoice.
