

Teams Phone choices battlecard

It is time to utilise the power of Microsoft Teams to maximise your revenue opportunity.

Why is Microsoft Teams Phone important to you?

The cloud is calling. The UK is facing the biggest changes in communications technology in over 100 years. Traditional phone lines can no longer be sold. Businesses need alternative solutions now.

There's never been a better time for MSPs to embrace this exciting opportunity and drive their growth in new ways.

Microsoft is a household name with a reputation for excellence. Now it has brought to market its first Unified Collaboration and Communications (UC&C) product which is already top of the Gartner Magic Quadrant™ for UC.&C.

Over 50%

of SMBs choose Microsoft 365 and work with Microsoft Teams on daily basis.

Why would customers choose Microsoft Teams Phone over their current telephone provider?

Teams Phone is the perfect solution for UK businesses.

All-in-one solution

- Bring together calling, chat, and meetings in an all-in-one app.
- Quickly start a call from Teams, Outlook, or a mobile device.
- Collaborate in Office apps within calls and meetings.
- Work across Teams and Outlook seamlessly with unified contacts and calendars.

Call from anywhere

- Have one phone number across computer, mobile, and desk phones.
- Turn a call into a group meeting without hanging up or redialling.
- Add flexibility to meetings with a dial-in conference number.
- Choose from a range of personal and shared devices built for Teams.

Streamlined management

- Save time and money with a single provider for IT and communications.
- Easily add phone numbers with the familiar Teams Admin Centre.
- Monitor and resolve performance issues with call analytics and a quality dashboard.
- Complete control and self-service over all communication services within Teams Admin Centre.

Secure, reliable, and rich calling

- Enjoy cloud calling features like consultative transfer, music on hold, call park, and more.
- Work as a team with group call pickup, delegation, and shared line appearance.
- Use built-in auto-attendants and call queues, or connect your contact centre software.
- Improve uptime with built-in redundancy and load balancing.
